2.	**19-CA-32811)**	**Boeing Company** **Related to 19-CA-32431 in which Advice memo issued on 8/31/10.** **The first, and primary charge in CA 32431 concerned allegations by the Union that Boeing unlawfully announced and began planning (and, in fact, had begun initial construction) for a new, nonunion facility in South Carolina to manufacture 787 airplanes when, at the same time, there was ongoing 787 construction in Everett, Washington with a unionized force that was covered by a collective bargaining agreement. Such initial charge also included the <u>GENERAL</u> allegation that the Employer also violated the Act by outsourcing/subcontracting the production of ancillary parts and equipment (e.g., airplane seats, etc.) to third parties. That case is currently still in Advice with oral presentations by the parties having been scheduled.** Non-Responsive Non-Responsive	**11/1/10**	**3**
