I found the blue slip in the bottom of my pile and will now process and give to Todd for the case file.

Rich, Are you doing a blue slip or do you want me to do it? The final agenda was on August 26. Th, C

Sue, Dianne is working with Cynthia and Anne to get the files to advice – it will likely happen next week. Anne has been in communications with Advice about it. I think the plan is to keep (or send) a complete duplicate as opposed to a dummy file. I'll ask that they keep you in the loop. Th, C

I verified w/Kobe that a Request for Advice issued in the above case on 8/31/10. I assumed that an oral agenda was held on 8/31/10, but have never seen a completed blue slip as of 9/3. Nevertheless, I posted info in CATS so it would not show up on our Overage Case Report. I will also eventually need a dummy file and a copy of the Request for Advice. I saw Dianne Todd discussing the matter w/Mary, so it may be in the works. I also need to know what date the case file was forwarded to Advice so I can enter that, too, in CATS.
