Thank you, Lafe. I'm looking for any public statements on that issue now. I hope to have something for you to review soon.

It's Boeing. The Machinists filed a ULP charge when Boeing decided to build some of the 787s in SC rather than Seattle.

Subject: Murray and Graham Bios

Good morning Lafe,

As we discussed yesterday, I am putting together bios for you and a few other facts for your meetings tomorrow. I believe you mentioned that Ms. Murray might be interested in a Lockheed Martin contract? Is that correct? I apologize – I could not remember which company you named and I have been unable to information on the issue.

I will run the backgrounders by Bob and get you something this afternoon. Thanks!
