Avery, Pat, Meredith and Terry – apologies for getting this to you so late. Mike Conathan may be joining us as well tomorrow. We'll see you at DMR offices at 10. Many thanks Sean

We've moved! As of July 7, 2015, the Conservation Law Foundation will be located at 53 Exchange Street, Suite 200, Portland ME 04101. Our phone numbers will remain the same.

Hi Sean,

Here is everything we have - same as yesterday. NRDC also informed us today that they changed the GPS coordinates of the Coral Canyons and Seamounts area to better match the HAPC designation – I have not yet had time to make that change in our version of the map.

Thanks,

Allison

Ok. If you can send me a package of best we have by 4:30, that'd be great. Thx Allison.

No, sorry. Adam from NRDC does not have the original letter either. He is waiting for Peter Auster to send it to him. I can let you know if I receive it by 4:30?

Hi Sean,

I am waiting for an updated version of the Coral Canyons and Seamounts science letter from NRDC. Once I have that I will send all the documents to you. In the mean time, here is the economic talking points.

Thanks,
Allison

Allison –If you have all of the documents in bold below, could you send them to me in one email so I can then forward them on? In a separate email, could you send me the economic data report? Thanks

What I have been handing out at the **fact sheets, the map, the scientist declarations, the list of supporters**. Not the Econ. Stuff. BTW just met with Moulton's fish person, Morgan Bell; this was the first she had heard about it. Which reminds me, I hope no one is talking about Chile to the outside world. It's one of the few advantages we may have to know that it could happen sooner rather than later.

Ask me how to support ocean conservation!

Thanks . by the way, I haven't sent anything to the DMR guys, Avery Day or PERC just yet. Mike – not sure if you have sent anything either. Ok to send the same material we sent to Jesse Connolly? We are scheduled for 10 am on Wednesday – Mike – you want to join us in that meeting? Peter, I'm also thinking that we make a day of it and try to get to Island Institute and maybe see if Kyle Molton/Robin Alden can come over from Stonington. If we go to Rockland, we can also meet with Larry Pritchett, current city council member (and chair I think) who I know through a long ago citizen suit that he helped on and who is leaning to support the effort. I spoke late Friday with Kyle Molton and he was a bit squirrely – concerned about guys in their sector who may want to fish there/may already fish there. They are important to get on board vis a vis Pingree. Left a msg for Jesse Connolly to call when he gets back just to check in. Toby McGrath will have a rough scope of work proposal for us later today or tomorrow. He and team are ready to go once we get details set up, assuming we are all in agreement on that. I think if we go with Toby, Kevin Raye could serve same role as Dennis Damon from a contract perspective. Still important to get Dennis' support I think. All for now.

Sean

Allison – I hear tell from Greg “what oceans program” Cunningham that you have a copy of the above letter where King says leave Cashes Ledge alone? Could you send me a pdf of that when you get the chance. Thanks sean
