Could a vessel hold a GARFO permit and an HMS permit? If so, would this answer be correct?

Or should it say, "are not permitted to fish commercially and as a recreational vessel (including for hire) on the same trip under their GARFO permits"

We can't remove it if we think we'll get the question (which we may). I suggest changing the sentence to read "Vessels with permits issued by the Greater Atlantic Regional Fisheries Office are not permitted to fish commercially and as a recreational vessel (including for hire) on the same trip."

If possible, I agree with Brad.

Permit holders that hold both types of permits would be confused by that phrase.

Personally, I would remove it as it leads to more questions vs. answers.

I wondered about that, modify to what? "With the exception of HMS permits . . . .?"

Although note our bullet point that federal permits can't be used to land fish commercially and fish recreationally on the same trip. Not sure that applies to HMS permits.

As you know, everything has to be cleared thru Brienne. So if possible, using your permit holder mailing process to send the same (final draft) letter would be desirable I think!

Thanks Colleen.

I'll take a look and get back to you shortly on how we plan on addressing this from the HMS perspective.

Here's the permit holder letter going our to GARFO fishermen. How do we do the same for HMS?

Hi Brienne,

Attached is the draft permit holder letter for fishermen regarding the Nov 14 prohibition on commercial fishing in the Monument. We need to get it out ASAP, as it goes by snail mail, and November 14 is fast approaching!

Confirmation of the exact coordinates to create GIS layers would be great to have.

Please let us know when cleared.

Thanks,  
Jen (for Tasker)
